## Research Office conducts Research Caravan

The University Research Caravan was conducted in ten (10) BatStateU campuses to encourage all faculty members to submit Research and Development (R&D) proposals for 2018. This aimed to: (1) increase the number of faculty involvement in the conduct of research, (2) increase the number of approved internally and externally funded researches, and (3) increase the number of publication, presentation and Intellectual Property (IP) applications of institutionally-funded researches.

Submitted research papers shall be evaluated for presentation in regional, national and international conferences and for publication in peer-reviewed journals. This will be evaluated by the BatStateU Office of the Vice President for Research, Development and Extension Services through Research Management Services Unit. After keen evaluation from the said offices, qualified researches will be endorsed to the Research Council for a thorough assessment prior to approval in order to meet the established criteria. In connection with this, the Directors and Assistant Directors of the BatStateU Research Unit conducted a write-shop in all campuses to give the researchers a better understanding on the methods of writing, outline of the research paper, filing of copyright, and overall procedure of the patent to be warranted.

## University Holds Research Colloquium 2018

Research Colloquium Local Evaluators together with Dr. Marilyn Elauria and Dr. Jessie Elauria.

To guarantee high quality research projects, BatStateU organized a

Research Colloquium through the Research and Development office. Its main objectives are to ensure the research proposals have scientific and technical merits; improve the methodologies of the proposals; ensure that research proposals have scientific quality; and improve research capability. This was held on March 26-27 at the CIRTC Bldg. BatStateU Pablo Borbon Main I.

Professors from the University of the Philippines Los Baños, Laguna served as evaluators for the colloquium. Dr. Jessie C. Elauria specializes on Agricultural and Energy Engineering, while Dr. Marylin M. Elauria's area of expertise includes Agriculture, Economics and Project Management. Furthermore, the 2018 Research Colloquium was successfully done with the presence of the Directors, Assistant Directors and Center Heads of the Research and Research Management Services office. A total of thirty-two (32) research studies were presented and critiqued by the evaluators.

**Mr. Francis Jesmar P. Montalbo** from the College of Informatics and Computing Sciences presents his research proposal entitled "Smart Lighting Systems for BatStateU-CICS"

**Dr. Pelita C. Panganiban** from the College of Arts and Sciences presents her project proposal, "Lingguwistikong Etnographiya ng Pilipinas: Ang Pagaaral ng Wikang Tagalog"

**Dr. Romeo M. Guillo Jr.** from the College of Teacher Education presents two proposals entitled "Building resilient, adaptive, vigilant, and empowered (BRAVE) marginalized sector in Batangas province" and "Mentoring, Empowering, Nurturing Teachers on Research in DepEd (MENTORED)"

**Dr. Vanessa V. Castillo** from the College of Arts and Sciences presents "Communication Challenges of BatStateU Teachers and Foreign Students: Baseline Work for Bridging Course and Training Program."

**Engr. Cristina Amor M. Rosales**, Assistant Director for Research, presents her proposal entitled "Development of Bridge Condition Monitoring Tool Using Deep Learning Approach"
