FIC hosts Food Expo: Technology and Innovation for MSME's Upscaling & Sustainability

VPRDES Engr. Albertson D. Amante and FIC Head Engr. Marielli Katherine C. Untalan initiate the ribbon cutting ceremony to officially open the food expo.

On September 17, FIC hosted the food expo dubbed as "Technology and Innovation for MSME's Upscaling & Sustainability" or TIMUS at BatStateU Pablo Borbon Main I.

The activity aimed to promote the innovative food products of different MSMEs in CALABARZON and the Food Engineering students of the university.

The booths with the best innovative products received awards at the end of the program.

FIC benchmarks MIMAROPA Food Innovation Center

The FIC team went to MIMAROPA Food Innovation Center (MIMAROPA FIC) on August 15-16 at the Mindoro State College of Agriculture and Technology (MINSAT) at Calapan City, Oriental Mindoro.

Aside from collaborative opportunities, the purpose of the visit was to benchmark the existing food products, programs, facilities, and services of MIMAROPA FIC and acquire new knowledge and practices

that the BatStateU FIC can adapt.

The team also met with some of the local MSME partners of MIMAROPA FIC and visited their processing plants.
