

National Research Conference on Education for S.T.E.A.M.

The National Research Conference on Education for Science, Technology, Engineering, Agriculture-Fisheries, and Mathematics (STEAM) was held on September 26-27 at the Century Park Hotel, Manila.

Alongside participants from different academic institutions, Assistant Director for Architecture, Engineering and Technology Research Dr. Cristina Amor M. Rosales attended the event together with other BatStateU faculty.

The conference included a series of presentations led by experts, followed by research presentations by researchers from different academic institutions.

The conference served as a refresher course for research methods and aimed to establish a wide network of STEAM educators who will be able to nurture students to become innovators of the generations to come.

Participants from BatStateU during the National Research Conference for STEAM

BatStateU researchers together with NOCEI members during the 2018 NOCEI General Assembly

Themed as "Current Trends in Data Management, Research Ethics and Utilization for Evolving Higher Education," the 2018 NOCEI General Assembly aimed to provide an opportunity for the participants to gain new learning on the latest research trends and to cultivate their capabilities as faculty researchers.

BatStateU researchers present at IHERF 2018

The Philippine Higher Education Research Consortium (PHERC) hosted the 2018 International Higher Education Research Forum (IHERF) held on August 22-24 at the Manila Hotel, One Rizal Park, Manila.

The three-day forum themed as "Internationalization of Research and Development and Innovation" aimed to gather researchers from different disciplines and encourage intellectual discussions among faculty researchers through a series of parallel sessions, pocket seminars, and forum, which focused on topical research trends.

Faculty researchers from BatStateU presented their research studies together with other research presenters from different universities.

2018 NOCEI General Assembly

BatStateU researchers participated in the Annual General Assembly of the Network of CALABARZON of Educational Institutions, Inc. (NOCEI) on July 20 at the Lyceum of the Philippines University – Batangas.

Director for Research Management Services Dr. Shirley G. Cabrera, Innovation and Technology Support Office Head Dr. Leandro A. Dalhag, and Director for Research Dr. Romel U. Briones graced the event together with educators, researchers, and administrators from various SUCs in CALABARZON,

Dr. Quinay (R) and Dr. Cabrera (L) with one of the forum's plenary speakers, Dr. Ruel Mojica, VP of Cavite State University (center)

Director for Research Dr. Shirley G. Cabrera was able to co-present with VP for Academic Affairs Dr. Erma B. Quinay one of the university's institutionally-funded research projects entitled, "Establishment of centralized Facility of Ultra High temperature Sterilizer/ High Temperature Short Time (UHT/HTST) pasteurizer for Milk, Coconut water and other Juices".
