CURRICULUM

Bachelor of Science in Transportation Engineering (BSTE)

Academic Year: 2021-2022

Reference CMOs: CMO No. 4 s. 2018 and CMO No. 20 s. 2013

Curriculum Description

The increasing transportation demand for systematized mobility of people, goods and services as part of rural development and urbanization all over the country indicates the need to increase specialists for transportation sector. The offering of Bachelor of Science in Transportation Engineering program in the university will provide skilled professionals that will take the lead in solving various transportation challenges. Bachelor of Science in Transportation Engineering program provides strong foundation in traffic engineering systems, transportation planning/management and design of transportation infrastructures. The program will adopt outcome-based education (OBE) framework with flipped classroom and other blended learning pedagogies.

Program Educational Objectives of Transportation Engineering

The Transportation Engineering alumni three to five years after graduation shall:

1. **Specialist.** Practiced as specialist in solving complex transportation engineering problems leading to improvements and innovations, while taking into consideration the environmental, social, and economical requirements.
2. **Professionalism and Leadership.** Assumed leadership position in industry, academe, government, or private sector with consideration to social and ethical responsibility.
3. **Lifelong Learning.** Engaged in lifelong learning through further studies, research, certifications, promotions, and other personal and professional development activities.

Institutional Graduate Attributes

The student should achieve at least 75% for each IGA upon graduation.

1. **Knowledge Competence.** Demonstrate a mastery of the fundamental knowledge and skills required for functioning effectively as a professional in the discipline, and an ability to integrate and apply them effectively to practice in the workplace.
2. **Creativity and Innovation.** Experiment with new approaches, challenge existing knowledge boundaries and design novel solutions to solve problems.
3. **Critical and Systems Thinking.** Identify, define, and deal with complex problems pertinent to the future professional practice or daily life through logical, analytical and critical thinking.

4. **Communication.** Communicate effectively (both orally and in writing) with a wide range of audiences, across a range of professional and personal contexts, in English and Pilipino.
5. **Lifelong Learning.** Identify own learning needs for professional or personal development; demonstrate an eagerness to take up opportunities for learning new things as well as the ability to learn effectively on their own.
6. **Leadership, teamwork, and Interpersonal Skills.** Function effectively both as a leader and as a member of a team; motivate and lead a team to work towards goal; work collaboratively with other team members; as well as connect and interact socially and effectively with diverse culture.
7. **Global Outlook.** Demonstrate an awareness and understanding of global issues and willingness to work, interact effectively and show sensitivity to cultural diversity.
8. **Social and National Responsibility.** Demonstrate an awareness of their social and national responsibility; engage in activities that contribute to the betterment of the society; and behave ethically and responsibly in social, professional and work environments.

Student Outcomes

The following skills, knowledge, and behaviors are expected to be attained by students as they progress through the program:

1. **Discipline Knowledge.** Ability to apply mathematics, sciences and principles of engineering to solve complex transportation engineering problems;
2. **Investigation.** Ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
3. **Design/Development of Solutions.** Design solution, system, components, processes, exhibiting improvements/innovations, that meet specified needs with appropriate consideration for public health and safety, cultural, societal, economical, ethical, environmental and sustainability issues.
4. **Leadership and Teamwork.** Function effectively as a member of a leader on a diverse team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
5. **Problem Analysis.** Identify, formulate, and solve complex transportation engineering problems by applying principles of engineering, science, and mathematics;
6. **Ethics and Professionalism.** Apply ethical principles and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, environmental, and societal contexts.
7. **Communication.** Communicate effectively on complex engineering activities with the community, and the society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions;
8. **Environment and Sustainability.** Recognize the impact of professional engineering solutions in societal, global, and environmental contexts and demonstrate knowledge of and need for sustainable development;

9. **Lifelong Learning.** Recognize the need for, and ability to engage in independent and life-long learning in the broadest context of technological change.
10. **The Engineer and Society.** Apply reasoning based on contextual knowledge to assess societal, health, safety, legal, cultural, contemporary issues, and the consequent responsibilities relevant to professional engineering practices.
11. **Modern Tool Usage.** Apply appropriate techniques, skills, and modern engineering and IT tools to complex transportation engineering activities;
12. **Project Management and Finance.** Demonstrate knowledge and understanding of engineering management and financial principles as member or a leader of a team to manage projects in multidisciplinary settings, and identify opportunities of entrepreneurship.
13. **Social and National Responsibility.** Apply acquired transportation engineering knowledge and skills in addressing community problems that contributes to national development.

CURRICULUM COMPONENTS

Classification/Field/Course	Credit Units	Number of Hours/Week	
		Lec	Lab
TECHNICAL COURSES			
A. Mathematics			
Differential Calculus	3	3	0
Integral Calculus	3	3	0
Differential Equations	3	3	0
Engineering Data Analysis	3	3	0
Numerical Solutions to Transportation Engineering	3	3	0
Sub Total	15	15	0
B. Natural/Physical Sciences			
General Chemistry	4	3	3
Physics 1	4	3	3
Modern Biology	3	2	3
Sub Total	11	8	9
C. Basic Engineering Sciences			
Introduction to Engineering	1	0	3
Computer Programming 1	1	0	3
Engineering Drawing	1	0	3
Computer-Aided Design	1	0	3
Statics of Rigid Bodies	3	3	0
Dynamics of Rigid Bodies	2	2	0
Engineering Economics	3	3	0
Engineering Management	3	3	0
Technopreneurship	3	3	0
Research Methods	3	3	0
Sub Total	21	17	12
D. Allied Courses			
Engineering Utilities 1	3	3	0
Strength of Materials	4	4	0
Hydraulics	3	2	3
Geotechnical Engineering 1: (Soil Mechanics)	4	3	3
Structural Theory	3	2	3
Sub Total	17	14	9
E. Professional Courses			
General Surveying I	3	2	3
General Surveying II	3	2	3
Transportation Engineering Orientation	2	2	0
Fundamentals of Traffic Engineering	3	3	0
Geometric Design of Highways	4	3	3
Railway Engineering	3	3	0
Traffic Engineering Laboratory	4	3	3
Transport, Energy and the Environment	3	3	0
Traffic Operations and Management	3	3	0
Transportation Networks and Optimization	3	2	3
Traffic Safety Management	3	3	0
Pavement Design and Testing	3	2	3
Railways Management	3	3	0
Principles of Structural Analysis and Design	3	2	3

Design of Transportation Infrastructures	3	3	0
Transportation Laws and Policy Development	3	3	0
Mass Transportation System	3	3	0
Transportation Planning and Design	4	3	3
On-the-Job Training	4	320 hours	
Transportation Engineering Economics and Finance	3	3	0
Pavement Maintenance and Management	3	3	0
Transportation Project Management	3	3	0
Transportation Engineering Design Project 1	2	1	3
Transportation Engineering Design Project 2	2	0	6
Fundamentals of Ports and Harbor Engineering	3	3	0
Construction Materials and Testing	3	2	3
Sub Total	79	63	36
NON-TECHNICAL COURSES			
A. General Education Courses			
Mathematics in the Modern World	3	3	0
Readings in Philippine History	3	3	0
Understanding the Self	3	3	0
Purposive Communication	3	3	0
The Contemporary World	3	3	0
Science, Technology and Society	3	3	0
Art Appreciation	3	3	0
Ethics	3	3	0
People and the Earth's Ecosystem	3	3	0
Sub Total	27	27	0
B. Mandated Courses			
Life and Works of Rizal	3	3	0
Kontekswalisadong Komunikasyon sa Filipino	3	3	0
ASEAN Literature	3	3	0
Sub Total	9	9	0
C. Physical Education			
Physical Fitness, Gymnastics and Aerobics	2	2	0
Rhythmic Activities	2	2	0
Individual and Dual Sports	2	2	0
Team Sports	2	2	0
Sub Total	8	8	0
D. National Service Training Program			
National Service Training Program 1	3	3	0
National Service Training Program 2	3	3	0
Sub Total	6	6	0
Grand Total	193	167	66

PROGRAM OF STUDY
