COLLEGE OF INDUSTRIAL TECHNOLOGY
GRADUATE PROGRAM

DOCTOR OF TECHNOLOGY

Basic Courses (18 units)

DT 600	Advanced Philosophy of Education
DT 601	Legal Bases and Procedures in Technology
DT 602	Advanced Educational Statistics
DT 603	Methods of Quantitative Research
DT 604	Methods of Qualitative Research
DT 605	Seminar in Trends and Innovations in Technology

MAJOR COURSES (24 units)

DT 606	Seminar in Industrial Organization and Management
DT 607	Advanced Engineering Design in Area of Specialization
DT 608	Advanced Product planning and Development
DT 609	Process Analysis
DT 610	Information Technology System
DT 611	Advanced Topics in Materials and Processes
DT 612	Waste Management and Pollution Control
DT 613	Web page Development, Graphics Standards and Laser Technology

ELECTIVES (9 units)

DT 614	Remote Sensing and Environmental Resource
DT 615	Problems in Environmental Engineering
DT 616	Environmental Control Strategies
DT 617	Ergonomics
DT 618	Advanced Computer Applications
DT 619	Principles and Applications on CNC and Repetitive Operation

Dissertation Writing (12 units)

DW 1	Seminar in Dissertation1 (Proposal Defense)
DW 11	Dissertation Writing 11 (Pre-Oral Defense)
DW 111	Dissertation Writing 111 (Final Defense)

Total Number of Units 63

Note

- Automatic admission of an applicant with Master's Degree in Technology and Engineering
